FIRST CAR?
START HERE.

A checklist for the car, the costs and what happens next.

1 CHOOSE WHAT FITS YOUR EVERYDAY

Think about your journeys, passengers and what needs to fit. Shortlist cars against those needs, then compare their recorded details.

My everyday needs

---

2 CHECK THE ACTUAL CAR

Request the records available for that vehicle and note what is unknown. For a hybrid, ask what battery information exists. An auction grade does not replace an independent inspection.

Records and questions to check

---

3 KNOW THE FULL COST

Request an itemised drive-away figure: car price, on-road costs (ORC) and any optional products. If using finance, compare the amount borrowed, rate, fees, term and total repayment. An estimate is not approval.

Quote and costs to check

---

4 PLAN YOUR VISIT

Request a test drive before travelling. The team confirms availability and a time; a request does not reserve the car. Bring your questions about the vehicle and its costs.
